Subject: RE: Letter

Dear Mrs. Day, thank you for the information provided yesterday. As I wrote to you on Monday we would very much appreciate a personal meeting with you to receive reassurance of that the issue of traditional Swedish snus is being evaluated based on science and according to established principles in the current review of the Tobacco Directive. Will such a meeting be possible?

Yours sincerely

Fredrik Peyron

Dear Mr Peyron

On 30 May I wrote to thank you for your letter of 14 May, received on 21 May, and to inform you that the Commission had referred the case to OLAF, the EU anti fraud office, for investigation. On 15 October the Commission received OLAF's final report on the investigation.

Despite the fact that Mr Dalli categorically rejects OLAF's findings he has tendered his resignation as a member of the Commission with immediate effect. I attach a copy of the press statement that is now being issued by the Commission.

Yours sincerely

Catherine Day
